TAXATION:

(No More Tax Headache!) More than 50% of Pakistan's economy is dependent on tax collection. That is why tax compliance has been made compulsory to every business so everyone gets in to tax net. Importance of tax returns now a day is very important that were never before. Tax legislation's are very complexes with emergence of new regulations in country and in international market. At this point of time the need of a tax consultant with knowledge and skills to deal with complex regulations increased.

ACCOUNTS & BOOKKEEPING:

(Let's keep an eye on every single penny you have in your business!) Accounting is the process by where a company's financials are recorded, summarized, analyzed, consulted and reported on. Bookkeeping is the recording part of this process, in which all of the financial transactions of the business (consisting of income and expenses) are entered into a database.

CORPORATE ADVISORY:

(Advisory at its best) SECP is one the top ranked institute of Pakistan, in terms of governance. Here we have a team of highly experienced advisors who know every bit of corporate advisory.
